Need some inspiration?

# ⊕ 5 minutes

Brainstorm Write down any ideas that come to mind that address your problem statement. You can select a sticky note ₼ 10 minutes sketch] icon to start drawing! prediction is easier to compute since learning used for we have raw data analysis available freely on the internet predicting the python is prices is done used for this by getting data from different time periods prediction visual history of prices representation can be used for can be done to reference get better idea Data is it is helpful for crucial for professionals and stock training the market traders model

# Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.
